#### ABOUT ME

I am the General Manager here and have been with the Company for over 10 years. It is my responsibility to ensure that Garon Park Golf Complex continues to be the friendly and welcoming environment that you look for in a golf club. As a mother of two I know how important it is to ensure safety and equality whilst enjoying sporting activities so my door is always open for anyone to speak out if they feel that there is anything they need to talk to me about.
